Mr. Michael T. Blouin
Director, Information Security Oversight Office
General Services Administration
Washington, D.C. 20405

Dear Mike:

STAT We have reviewed your request of 26 June regarding the use of your staff member [] special knowledge of CIA in formulating your plans for on-site inspection of CIA classification programs and feel that it would be of value to both our organizations. We therefore concur in your proposal with some limitations.

Under no circumstances should [] discuss operational matters, substantive intelligence, or matters concerning sensitive intelligence sources and methods. Within the above caveat, [] will be permitted to discuss with you CIA organizational and functional matters as well as records systems and classification programs maintained by CIA. With this kind of information, you should have a better understanding of this Agency and thus be in a better position to fulfill your responsibilities.

Per our telephone conversation of 10 July, we will discuss the specifics of the above guidance with [] at our meeting set for Monday, 16 July at 10 a.m.

Sincerely,

[]
Chief, Information Services Staff
Directorate of Administration
